Committee**

(Associated Press.)

WASHINGTON, Dec. 15.—Representative Kelly, Republican, of Minnesota, failed to appear today before the house judiciary committee in response to a formal summons.

At his office afterwards it was stated that when he had decided definitely not to respond to the subpoena served on him late yesterday after he had dramatically announced his withdrawal from further participation before this committee in the presentation of his impeachment charges against Attorney General Daugherty.

Whether the committee will undertake to compel his appearance or to bring him before the bar of the house for contempt will not be decided before tomorrow.

Postponement of further proceedings until that time has been taken at the request of Attorney Jackson H. Rawlin, who stated in a letter to Chairman Volstead that he was representing the Minnesota member.

Representative Keller refused late yesterday to participate further in the hearings before the House judiciary committee on the impeachment charges brought against Attorney General Daugherty. Characterizing the hearings as "a comic opera performance," he declared he would be untrue to his responsibility as a member of the House if he assisted further in "a bare-faced attempt to whitewash Harry M. Daugherty."

Immediately after he announced his withdrawal the committee voted to go on with the hearings; to subpoena Mr. Keller as a witness, put him under oath and question him as to the basis for his charges of high crimes and misdemeanors against the Attorney General. Later he was summoned formally to appear before the committee tomorrow morning.

Plans Made For Army Budget Drive

The committee of four, consisting of J. W. CLOPTON, Charles Rountree, J. C. White and J. F. Lovin, named to complete plans for the budget campaign of the Salvation army to open Tuesday morning, met at the office of Mr. CLOPTON last night, and completed the task assigned to it. It was stated by Mr. CLOPTON this morning that the finished work of his committee would be passed on to a committee headed by W. W. RAHM sometime today.

State Secretary Of 'Y' Work Moves

Announcement was made at the Y. M. C. A. this morning of the resignation of C. J. JACKSON, as State Secretary, to accept the Secretaryship of the City Association at Jacksonville, Fla. C. J. RANDOLPH, who has had Mr. JACKSON as a guest here frequently in connection with the Y. M. C. A. work, stated that the city college and railroad associations would greatly miss the services and inspiration of Mr. JACKSON when he removes to Florida.

The meeting to elect a successor to Mr. JACKSON will be held in Birmingham, December 21. A. H. HOFF, who is a member of the Executive committee of the state Y. M. C. A., is expected to attend that meeting.

Movie Operator Hurls a Blazing Reel To Street

HARTSELLE, Ala., Dec. 15.—Thursday was a day of near fires here. At noon a fire was discovered in the kitchen of the Central Hotel, occasioned by a bad flue. It was discovered in time to put it out without any great damage.

About 4 o'clock Friday afternoon at the Seenic Theatre, what looked at one time would be a serious fire, was averted by the prompt and heroic efforts of the operator, Hal Orr.

A film which was being shown at that time ignited from a short circuit wire, and was in flames in an instant. The presence of mind of the operator saved the day. As quick as thought he disconnected the film from the machine and threw it out of the window. In doing so he was seriously burned about the hands and wrists, and it was necessary to call a physician to dress his wounds. Aside from the loss of the film, no serious damage was done, with the exception of the disfigurement of the ceiling by the flames from the burning film. The audience at the theatre at time, fled out without any serious commotion.

'Y' OFFICIALS ARE HAPPY OVER TURN TAKEN IN CAMPAIGN

Association officials are joyous over the prospect of their fondest hopes being realized as to the number of memberships garnered during the present campaign. The most sanguine "hoppers" and "dopsters" have placed the grand total of members at the close of this week at 1200 even.

It now appears that very probably the 1200 mark will be struck by the arrow of success. The campaign management at the shops state positively they expect not less than 1000 memberships from the big industry. Already—at the close of the campaign Thursday—there were 722, written-up memberships, in the office of the General Secretary.

In times past a custom has prevailed among leaders, where as strong a spirit of rivalry existed as exists today, for large number of memberships, to be held back until "the proper time."

In the event this time honored custom is now prevailing, there is no telling what the final totals from the shops will be.

It was stated this morning that C. W. MATTHEWS, the General chairman of the present "Y" campaign, is advising that in view of the busy pre-Christmas season in the business sections, no active canvass was anticipated there, the letters now being sent out by W. W. RAHM and others had "the desired effect."

But the statement was added, that in case a personal, house to house canvass proved necessary or desirable for any reason, that enough forces were being held in readiness to adequately take care of the situation. The business sections are being depended upon to bring the membership up to a total of twelve hundred, regardless of how near this figure the shops committee may come by Saturday night.

Huge Lemon Grown By John Babler

One of the largest native grown lemons, ever seen in the Twin cities is on exhibition at the Daily office, the gift of John Babler, who sent it in by Lawson Davison. Lawson stated that Mr. Babler had a larger one still on his hot house tree at home. It was stated that lemons that it would take a half gallon bottle to hold, have been made out of some of the lemons raised by Mr. Babler. The one on exhibition measures around 13 inches in circumference, and weighs a pound and a quarter. It was stated the lemon belongs to the "pondorosa" variety.

NOTHING BUT SITE TO BE 'ADJUSTED' IN MILL LOCATION WELLS DECLARES

**Granted Ten Years Exemption
From Privilege Tax By
Council**

**TO HAVE 4 TIMES THE
PRESENT MILL CAPACITY**

**Head of Big Hosiery Concern
Gives Idea of Develop-
ment Plan**

W. A. BIBB, Chairman of the Board of Directors of the Morgan County National bank, this morning authorized the statement, that the deal for site for the location of the proposed new factory building of the Cooper-Wells company to be located here had been practically closed.

The statement of Mr. BIBB was made immediately following a conference with J. Ogden Wells, who has been in the Twin cities for the past few days. Possible doubts as to the location of the new concern were swept away by the statement of Mr. BIBB. Last night Mr. Wells stated that only the matter of the deal for the site remained to be settled before his company would begin active operations for the erection of the factory building.

"Nothing but the site," stated J. Ogden Wells, at his hotel "remains to be adjusted," when asked if he would at once begin work on the new Cooper-Wells Knitting mill. Mr. Wells made this statement when informed of the action of the Albany city council at its special session granting him and his associates exemption from the privilege tax for a period of ten years and agreeing to provide such sanitary arrangements as might be required for the new mill.

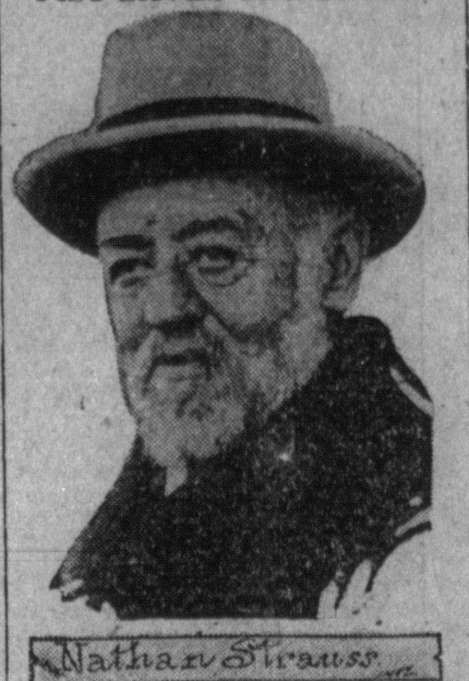

Mr. Wells stated that the new mill would start up with four times the capacity of the Cooper-Wells mill now in operation on Moulton Street. There are sixty-two ribbing machines, and forty-five knitters at the Moulton street plant, and these numbers multiplied by four makes 180 new knitters and 248 ribbing machines. The first output of the proposed mill per day will be 1,000 dozen pairs of hose. The mill will be seventy-two by one hundred and eighty feet and will contain a large deep basement in addition to the one story above. The plans of the building in detail have not yet made public.

At the Albany City Council. At the special session of the Albany city council, presided over by the President, C. E. SITTSON, the request of Mr. Wells and his associates, that the city of Albany agree to exempt the new industry from privilege tax for a period of ten years, and connect the proposed new hosiery mill of the Cooper-Wells company, with adequate sewer facilities, was taken up immediately and discussed at length. Most of the members of the council were present and entered into the discussion with enthusiasm. There was no objection whatever to the plans as suggested by Mr. Wells.

Attorney Melvin Hutson was present and advised the council that there was nothing in the way as he could see of action being taken along the lines suggested. After the members had expressed themselves as heartily in favor of meeting the demands of the Cooper-Wells company, E. G. CHERRY, moved that the council give official approval, and allow Mr. Wells and his associates privilege tax exemption for a period of ten years and provide such sanitary conditions as the directors of the new concern might require. The motion of Mr. CHERRY was duly passed and properly signed.

The final resolution passed at the council concerning the requests of the Cooper-Wells company, provides in addition to granting said requests in addition provided that similar consideration be shown any similar concern that may in the future de-

FARM BLOC STILL BEHIND FORD'S BID FOR SHOALS PLANT

(Associated Press.)

WASHINGTON, Dec. 15.—Denouncing reports he said had been circulated that the "farm bloc" had "deserted" Henry Ford in the Muscle Shoals fight, Representative Rankin, democrat, Mississippi, declared in the house yesterday that no man was able to deliver the vote of the farm bloc. He was answered by Representative Kearns, republican, Ohio, a member of the military committee, who said the Ford offer was "misleading to the American people."

Mr. Rankin referring to a bill introduced by Representative Dickinson, republican, Ohio, advocating operation of Muscle Shoals by a government-controlled corporation, said the word had gone out that Mr. Dickinson's action meant that the "farm bloc" was behind the plan.

Please Mail Early Say Postmasters

Postmasters Huie and Crawford, of the Albany and Decatur postoffice respectively, urgently call the attention of the public to the vital necessity of mailing Christmas packages and other Christmas mail matter early. At the two offices it was noticed already that the annual Christmas rush has started, and will grow between now and that date.

Minstrel Band At Automobile Show

The minstrel band from Gus Hill's minstrels will play at the automobile show this evening. The public was cordially invited to hear the musical program, which is an additional feature.

Big crowds attended the show yesterday and much favorable comment was heard on the beauty of the new models of fine cars displayed.

Agricultural Aid Bill Reported Out

WASHINGTON, Dec. 15.—The bill of Senator Harris, Republican, of Nebraska, to establish a \$100,000 government corporation to finance the sale of agricultural products, was ordered reported favorably today by the senate agricultural committee.

PATTERSON'S PLANS IN VALUATION FIGHT NOT MATURED NOW; STATEMENT LATER

**President of Public Service Com-
mission Declines to Make

**REFUSES TO CONCEDE

**Accountant Refused Opportunity

Reports**

Plans of A. G. PATTERSON, president of the Alabama public service commission, in his fight on the recently announced valuation of the property of the Alabama Power Company, are not fully matured and he would make no comment on them when interviewed here Friday. Mr. PATTERSON came home from Montgomery "to get away from the matter" for a few hours following his unsuccessful filibuster to prevent the Associate Commissioners, Cooper and Galliard from deciding on the valuation.

Mr. PATTERSON indicated that he might have a statement for the public in the course of the next day or two.

According to dispatches from Montgomery Mr. PATTERSON has refused to concede the legality of the valuation of \$33,843,252 as set by the associate members of the commission. This declaration was said to have followed a day filled with futile attempts of the president of the commission to have the commission give further consideration to the valuation question.

"I have done the best I could to get at the truth of the holdings of the Alabama Power company," Mr. PATTERSON said, "I made every effort to get a report on their property from their own accountant. It was in the hope that two could get that information before deciding the valuation that I led the filibuster this week in an effort to delay decision until the information was secured."

"I was informed by Mr. Aldridge, our accountant, by telephone late yesterday that he had been unable to make an examination of the books of the power company. He stated he had been refused an opportunity to go over the books by the company."

"My future plans in the matter are not ready at this time to be made public. However I will probably have a statement to make to the public regarding the question soon."

Mr. PATTERSON expressed no opinion whatever on the reasonableness of the valuation as fixed. He declared he did not believe he had sufficient information at hand to arrive at what was a reasonable valuation.

He had nothing to say of the power company itself, apparently being of the belief that it was his duty to maintain a judicial poise which would give justice to the power company or any other company having business before the commission.

County Agent To Take Up Duties In This County Soon

Morgan county has been without a county agent for some time, following the transfer of the former county agent W. G. JOHNSON, to Lineville, Ala. The announcement is made, that the services of J. C. FORD, of Albertville, Ala., have been secured and he will enter upon his work at an early date.

Mr. FORD was in Hartselle a few days ago looking over the field preparatory to moving his family there. He was successful in securing quarters in the Murray home, and will arrive with his family in a few days.

An insistent demand has gone up from the farmers of this section, backed by the Morgan county farm bureau, for an all time county agent. Many of them claim his services were well high indispensable to the prosecution of the farm work. Mr. FORD comes highly recommended, is an old Auburn man, having graduated from the Extension Department there, and his coming will be gladly welcomed.

LOCAL MINISTER MAY ACCEPT CALL FROM MONTGOMERY

Dr. W. P. NATURE OF PARLEY WITH AMBASSADOR NOT ANNOUNCED BY SECRETARY HUGHES

**Will Sail on the Berengaria For
America on December

**EUROPEAN AFFAIRS
ARE ON THE BOARDS**

**Mrs. Harvey Will Not Accom-

Home**

(Associated Press.)

LONDON, December 15.—Ambassador Harvey has been called home for consultation, it was stated at the American embassy this afternoon. He will sail on the Berengaria, December 23. He will not be accompanied by Mrs. Harvey, who will leave the preceding day for a visit to Madeira.

The nature of the consultation, for which the Ambassador was summoned, was not known at the embassy, where it was said the message calling him to Washington merely said it was "for a consultation."

It is presumed the discussions with Secretary of State Hughes will cover the whole range of European affairs including the allied debts, reparations and kindred subjects.

Stanley Baldwin, the chancellor of the exchequer and the other members of the British mission, which is to visit Washington for discussion regarding the British debt to the United States December 27, four days after Ambassador Harvey's sailing so that his visit will coincide with the presence in America of the British mission.

REPORT OFFENDED.
(Associated Press.)

WASHINGTON, Dec. 15.—Although state department officials confirmed today the London announcement that Ambassador Harvey had been called home "for consultation," they declined to make any explanation as to the specific questions Secretary Hughes desired to discuss with him.

This announcement follows word from London last night that Mr. Harvey would return to the United States in near future for short visit. The first understanding was that his trip was largely due to anxiety about the health of Mrs. Harvey, it being assumed she would accompany him on his voyage.

GERMAN SEEN.
(Associated Press.)

WASHINGTON, Dec. 15.—Dr. Otto Wiedeselt, the German ambassador conferred at length today with Secretary Hughes, but no information was available as to whether their conversation touched on reparations or took cognizance of the serious situation in Germany, confirmed by reports which have been received here through American trade channels.

The call of the German envoy at the state department, however, coming just before the usual Friday cabinet meeting, was regarded as a possible indication that the President and his official family might desire to have before the mat once all available information as to precise conditions in Germany, as they relate to the problem of reparations payments.

Premier Poincare Offers To Resign

(Associated Press.)

PARIS, Dec. 15.—Premier Poincare, after sketching briefly and optimistically the program of the reparations and Turkish peace negotiations, told the chamber of deputies today that he was willing to withdraw "gracefully" if the chamber thought it really had another cabinet better qualified than his work for France.

Agriculture is becoming each year more and more recognized as the bulwark on which rest the success or failure of every other industrial activity. There was a time, and that not so very long ago, that farming was taken just as a matter of course, and promises which were not fulfilled were long held out to the farmer and interests represented by him. He has incessantly demanded at the hands of those who represent him, that he shall have some say so in the affairs of government, and the last two years has marked a decided turn in the attitude of other big businesses toward the man who tills the soil. The dirt farmer has been recognized; and with this recognition, there has been more helpful agencies in his behalf than heretofore. He is now represented in the council halls of the nation, as distinctive agencies have been incorporated, having in view his interests.

With the inauguration of the Federal Reserve

banking system, the first real step toward the support of the farm and its products was taken, making it possible to have enough money in the cotton growing states to amply take care of the great cotton crop, and not have to depend on Wall street for finance. Another important step was taken when the War Finance Corporation, an arm of the government, made it possible for the Cotton Pool Associations of the south to borrow enough money to make the plan a distinct success from the start.

The road of progress for the cotton farmer which has heretofore been dimly lighted, is now glow with some of the most helpful agencies for the successful handling of this most important crop of the nation, and instead of being compelled to sell his product at a price less than the cost of production, he is able to hold until such a time a price will justify. It is well.

To the county agents, who have been made possible by the government, in connection with the Board of Revenue in the several counties, great good has been accomplished; a feature of his work being to enlist the boys and girls of the county in better farming, canning and other pursuits which have made of the farm a great factor for increasing crops, and conservation.

Gleaners are those who by careful and painstaking work, save what others waste. In the aggregate, the average family yearly wastes enough to keep another average family in sustenance. It is said that American people are the most wasteful of any. Many of our financial ills are attributable to this cause. Most of us during the fat years, spend with a lavish hand, thereby making certain the lean years which will surely follow. There are those who merely glean of the material things of life who in the end accumulate. It comes by patient and persistent saving of the small things, practiced over a long period of time, but, it is sure.

Science enters boldly where doubt halts and hinders.

**BAD LUCK AND THE DEVIL
PURSUED HIM.**

"I don't think any one has had more bad luck and sickness than I have. In 1915 I had two ribs broken in a railroad accident. Then I had pneumonia. After recovering I crossed a pasture when a bull chased me, tossed me over the fence and broke my right leg. In 1910 I had typhoid fever; since then severe stomach and liver trouble, which no medicine or doctor touched until two years ago I got a bottle of Mayr's Wonderful Remedy, which proved the first ray of light in thirteen years." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. WINTER ILLS

The scientist was often puzzled to account for the efficacy of cod-liver oil. The discovery of vitamins has helped solve the riddle.

Scott's Emulsion

is rich in health-building vitamins and is a helpful factor in preventing the so-called "winter ills." It helps keep the vital forces of the body strong to resist disease.

(Associated Press.)
CADDON, Okla., Dec. 15.—Five men held up the Caddo State bank here shortly before noon, locked fourteen persons in the vault and escaped in a large motor car with approximately \$10,000 in Liberty bonds.

PHILADELPHIA, Dec. 15.—Seven men in an automobile, robbed the bookkeeper of the first National bank of Darby, of \$10,000 today while he was taking the weekly payroll to Sels and company, soap manufacturers.

Harry McKee, the bookkeeper, who was acting as bank messenger at the time, was shot in the cheek, the bandies escaping in a large motor car.

Use Calumet**

Where baking is done scientifically—where ingredients stand or fall under exacting tests, you find Calumet Baking Powder used more often than any other brand.

—the choice of over hundreds of brands—the perfect leavener—pure—uniform.

Keep this in mind when you buy baking powder, because it is of vital importance to successful—dependable baking.

The purchase price of baking powder does not determine its economical merits—results tell the story.

That's why the sale of Calumet is 2½ times as much as that of any other baking powder.

A pound can of Calumet contains full 16 ounces. Some baking powders come in 12 ounce instead of 16 ounce cans. Be sure you get a pound when you want it.

Miss Maria Evelyn Calvin is expected home from Goucher College in Washington, D. C., to spend Xmas with her parents, Mr. and Mrs. J. H. Calvin.

Miss Lodania Hanna and brother, Eddie, of Tanner, have returned home after a visit to their sister, Mrs. Dewey Goode here.

Mr. and Mrs. J. C. Jones and family have gone to Clinton, Ala., where they will reside in the future.

MUSICAL AT ATHENS.

Under the auspices of the Conservatory of Athens College, an interesting entertainment was given Monday evening in the College Auditorium. The program was opened by three spirited numbers rendered by the college orchestra, accompanied by Mr. C. C. Fuller, the director. Following this the Glee Club made its initial appearance with two lovely selections which displayed marked ability and superior training. Mr. Fuller played artistically Chopin's Fantaisie-impromptu, Opus 66, and Mrs. Nolen of the Voice Department, gave a sympathetic rendering of Elsa's Dream, from Lohengrin. The second part of the program consisted of a one-act domestic comedy, "Thursday Evening," cleverly presented by students in the Expression Department.

Rev. Kerr Speaks At Men's Meeting

Rev. Kerr, pastor of the Associate Reformed Presbyterian church, of South Albany, will make an address at a religious meeting to be held in the lower shop yards today under the auspices of the R. R. Y. M. C. A. Rev. Kerr, spoke to a similar meeting Wednesday and created a favorable impression. Secretary Randolph stated that the activities of the "Y" as regards games at the shops, were satisfactory. A new basketball court is being planned in addition to the one already in use, stated Mr. Randolph. He added that the Association was furnishing lights for the basketball court near the Association building, and that many of the city school students were using that court.

SURE IT DOES GOOD

Thedford's Black-Draught Liver Medicine (Vegetable) Praised by the Head of a Louisiana Family.

Lake Charles, La.—"I don't know what we would have done had we not had Black-Draught. It sure is one of the best medicines made, and am sure the best liver medicine," said Mr. Henry Garrett, of this city.

"My whole family uses it," continued Mr. Garrett. "My wife says she believes she kept off the 'flu' by taking doses of Black-Draught regularly."

"I, myself, use Black-Draught for indigestion, and it is fine."

"We used pills and tablets and other laxatives, but they never seemed to do us good, but the Black-Draught sure has, and it has come to our house to stay. We give it to our daughter for headache and torpid liver."

"I am glad to recommend anything that has been the help to my family that Black-Draught has."

"My present health is good. Have two boxes of Black-Draught in the house now."

If your liver gets out of fix, take Black-Draught. It will help to drive the bile poisons and other unwholesome matters out of your system. Sold everywhere. NC-148

GIVEN PRIVILEGED STATUS
(By Associated Press.)
WASHINGTON, Dec. 15.—The house rules committee voted today to give privileged status to the Green resolution proposing an amendment to the constitution, under which further issuance of the exempt securities would be prohibited.

DR. COPELAND GETS PRAISE FOR WORK

A news notice from Norman, Texas, seat of the state University, will prove of interest locally. It is concerning Dr. Theo. Copeland, who some years ago was the pastor of the South Albany Methodist Church. Dr. Copeland is now pastor of one of the large Methodist churches in Dallas, Texas. The reference to Dr. Copeland is contained in the "Texas Advocate" and is as follows:

Last Sunday night we closed the greatest revival meeting that this city has ever witnessed. Dr. Theodore Copeland, of Dallas, Tex., came to us the first Sunday in October and we started the meeting in our Church. At the end of the first week our church would not hold the people. Dr. Copeland had by this time made such a splendid impression on the other pastors of the city that they asked that they might come in and make of it a union revival. We then moved to the First Presbyterian Church, the largest church auditoriums in the city, and we continued the meeting. Several times we turned away hundreds of people for lack of room.

One hundred and seventy-seven applications for Church membership were received, and the whole town revived. Norman is the seat of the State University, where more than three thousand students are enrolled. Many of these students attended these meetings, and many of them were converted and gave their names for Church membership. Dr. Copeland spoke to the student body in the university auditorium, and made a fine impression. Before he left they all knew him and loved him.

Dr. Copeland did a work here that will abide. Of all the evangelists who have been in this part of the country he stands at the head of the list. He preaches the simple gospel in a most attractive way. He is unique. People are saying all the time, "We have never heard any one like him." And it is true, he is in a class to himself. He does not abuse or drive people, but loves them and leads them. He ties the people onto the pastor with hooks of steel. As a result of this wonderful revival the churches in Norman

have a place of influence they have never had before. We believe that this revival will continue, because since the revival closed others are giving their names for Church membership. We are truly thankful for the coming of Dr. Copeland and for this great revival.

REWARD OFFERED.

The Sheriff's office is in receipt of a notice of reward of \$500.00 offered for the arrest of Lawrence J. Sarver, who was being held on a serious charge at Rygate, Golden Valley, Montana. Sarver was an automobile dealer in Illinois, and sold autos and accessories. The reward and description is given and signed by a woman sheriff of Montana, Ruth Garfield.

CREEK MUDDIED.

The rain of Thursday night has muddied the waters of Flint Creek, the first time in five months. This stream is now rising, and bids fair to go bank limits in the next 36 hours.
